### Does the workshop meet its overall objectives?

It raised the profile of the APN among young/early career scientists in the South Asia sub-region. **95%**

It increased participants' capacity to submit competitive proposals to the APN. **84%**

It empowered APN members to impart knowledge on the APN proposal submission process. **79%**

It empowered APN members to learn about the APN proposals process. **79%**

It provided knowledge on issues of climate adaptation and creates opportunities for collaboration. **74%**

Fully agree Partially agree Not at all

### Selected Comments

Involve more **SUCCESS STORIES**

Piyush Dahal, Nepal

Half an hour could be allocated for an **OPEN DISCUSSION** to identify specific topics

Dhiraj Pradhananga, Nepal

Allow some time to discuss **COMMON ISSUES** in the whole region and some **SPECIFIC CONCERNS** of each country

Dhiraj Pradhananga, Nepal

**MORE TIME** needs to be allocated for **writing of proposals**

Syed Mujtaba Hussain, Pakistan

The selected venue was wonderful and quiet, allowing us to **FOCUS** on our work

Erandathie Lokupitiya, Sri Lanka

**PRESENTERS** should manage time well and allow ample time for **Q&A**

Jigme Nidup, Bhutan

I learned good information and received valuable inputs from this workshop and I plan to submit a proposal to APN in the future with other collaborators from South Asia. My specialty comes under global change, greenhouse gas inventorying, and land-atmosphere exchanges, which are covered under the subject areas of APN's activities.

Erandathie Lokupitiya, Sri Lanka

### How is the overall management?

The information contained in this page is based on participant feedbacks collected from the post-workshop evaluation at the 4th South Asia Proposal Development Training Workshop, 17-18 January 2013, in Kathmandu, Nepal. Selected icons by Joris Hoogendoorn, P. J. Onor, Lynn D. Christensen, the Noun Project.
