

**Second Announcement DATE CHANGE**  
**Workshop on Climate Change and Urban Adaptation**  
**Science and Practice: Exploring the Challenges**

**Venue:** Raglan, New Zealand

**Date:** 8<sup>th</sup> – 12<sup>th</sup> Dec 2013

Supported by Asia Pacific Network for Global Change Research (APN), Monsoon Asia Integrated Regional Study (MAIRS), and International Global Change Institute (IGCI), this workshop will provide a venue for scientists and practitioners to discuss the emerging issues related to climate change and urban adaptation where scientific, technical and practical issues are equally valued.

**Themes:**

- Emerging climate change science and methodological issues as they relate to adaptation practices
- Climate change risk assessment methodologies and tools
- Application practice: tools and their application
- Climate change information and communication for adaptation
- Climate change adaptation practice in various urban sectors
- Urban planning, decision making and climate change

December 9<sup>th</sup> and 10<sup>th</sup> will be an open workshop of presentations and panel discussions. December 11<sup>th</sup>, will focus on the APN funded project: 'Development of an Integrated Climate Change Impact Assessment Tool for Urban Policy-Makers'. This day will be dedicated to project planning and progress reporting. APN will provide travel support to invited project collaborators.

We invite you to register your abstract online at: <http://igci.org.nz/workshop-01/>

before 1 October 2013

If you have any questions, please contact the IGCI secretary [clare@igci.org.nz](mailto:clare@igci.org.nz)

If you have requested a letter of support for immigration purposes, please email me with your name as it appears in your passport, your passport number and the expiration date. A letter of support for your visit will be returned to you.
