INTRODUCTION

Four in-country learning labs (training workshops) conducted in Malaysia, Lao PDR, Vietnam and Cambodia.

To bring together multiple stakeholders to explore ways to reduce the risk posed by climatic hazards before they are realised as disasters resulting in loss and damage.

Why

WORKSHOP HIGHLIGHTS

Discussion of South East Asia climate trend and scenario with focus on climatic extremes

Addresses all technical terms involved in the DRM cycle and clearly explain connection between DRM and Sustainable Development

Training on the use of an easy-to-use risk assessment methodology and world café approach using DRM-SD model (developed by CGSS)

Providing access to loss and damage assessment approaches and help prioritise adaptation options

Training on risk reduction project planning using logical framework analysis and Atkisson's methodology to develop and implement interdisciplinary risk reduction projects.

Address closely the capacity needs of APN's Climate Adaptation Framework and the outcome of the special APN workshop on CCA, DRR and L&D held in Kobe, 21-23 August 2013

WORKSHOP FEEDBACK

VIETNAM

- “Need improve in logistics: accommodation & meals”
- “The workshop should take some minutes for participants introduction (icebreaking session)”
- “Set up schedule that works with Vietnamese official hours”

LAO PDR

- “DRM quiet new for me so need more training about this for the better work infuture”
- “Youth also plays an important role for DRM and now we have Youth volunteer group for DRM in each level around the country so need more help for training for them”
- “This workshop is well organized and very comprehensive but in DRM topic should be explained more detail. The reason is the topic of DRM would be a new for someone who don't have a background on this topic”
- “LFA for project management all so very good for us”

CAMBODIA

- “Some document and some lesson slide preparedness is not in order, but agree with the lesson”
- “Should have more participants from related departments, NGOs, etc. to share knowledge, experiences and ideas on disaster risk management”
