

**THE GOBESHONA**  
**CONFERENCE FOR RESEARCH ON**  
**CLIMATE CHANGE IN BANGLADESH**  
 08-11 January 2017

**DAY 0**  
**7 JANUARY 2017**

**DAY 1 - 3**  
**8 - 10 JANUARY 2017**

**DAY 4**  
**11 JANUARY 2017**

**THE NEXT GENERATION RESEARCH INTO USE SCIENCE-POLICY DIALOGUE**

**CONFERENCE THEMES**

- Adaptation Technologies
- Agriculture and Food Security
- Climate Change and Gender
- Climate Change and Livelihood
- Climate Change and Modelling
- Coastal Zone Management
- Disaster Management and Disaster Risk Reduction
- Eco-system Resilience and Biodiversity
- Health and Wellbeing (Climate Change Context)
- Local Adaptation Planning
- Loss and Damage
- Migration
- Mitigation
- National Adaptation Planning
- Natural Resource Management
- Political Economy and Climate Finance
- Renewable Energy
- Urbanization and Development Control
- Water Resource Management

Gobeshona is a climate knowledge platform in Bangladesh. It's organising the third annual conference Gobeshona 3. The conference is an opportunity for international and multi-stakeholder participants to engage with a wide range of Bangladesh-specific climate change research and activities.

Conference venue:

Independent University, Bangladesh (IUB)

Plot 16 Block B, Aftabuddin Ahmed Road,  
 Bashundhara R/A, Dhaka, Bangladesh  
 Phone: +88-02-8431645-53, 8432065-76

# GOBESHONA

Making Research on Climate Change in Bangladesh More Effective

Gobeshona is a climate knowledge platform in Bangladesh. It aims to bring together the national and international research community to encourage sharing, enhance quality and, in doing so, make climate change research on Bangladesh more effective.

## Gobeshona Young Researcher Workshop

Gobeshona encourages the young researchers in Bangladesh to study on climate change and publish their research at academic journals. To strengthen the quality, four thematic workshops are designed and hosted throughout the year on identifying research gaps and writing research proposal; research methodology; scrutinizing and documenting research; and publishing research. Additionally participants are connected with relevant experts for one-to-one mentoring.

## Gobeshona Portal

[www.gobeshona.net](http://www.gobeshona.net) is the portal which assimilates and shares information about completed publications, ongoing research, upcoming events and researcher opportunities relevant to climate change in Bangladesh.

## Gobeshona Monthly Seminar

The Gobeshona steering committee is a network of government, academia, research, practicing and support organisations rotationally hosting a monthly seminar to present the latest research findings on climate change in Bangladesh.

## Gobeshona Conference

The third Gobeshona conference will be held on 8-11 Jan 2017 at the Independent University, Bangladesh (IUB). The conference updates the participants on the current state of knowledge on climate change in Bangladesh through thematic sessions hosted by the Gobeshona Steering Committee. 11 January is the Science-Policy Dialogue day led by the Government of Bangladesh. Gobeshona 3 is built upon the strengths of the last two conferences, engaging researchers alongside policy makers, implementing agencies and support organisations. It aims to evaluate research and address policy needs and gaps to find effective ways to move forward in confronting climate change.
