

WHAT WE CAN DO ABOUT CLIMATE CHANGE TO REDUCE LOSS & DAMAGE

MITIGATION

ADAPTATION

Decrease production of greenhouse gases

Adjust habits and lifestyles to limit impacts of climate change

National level

Promote renewable energy

Form public and private partnership on risk management

Reforest

Consider climate change impacts on plans and policies

Household and individual level

Reduce
Reuse
Recycle

Learn and inform others

Use electricity wisely

Prepare an emergency plan

Walk, bike, or use public transportation

Reinforce house structure

Conserve water

Harvest rainwater

Plant trees

Plant trees

and many more!

This is Part 4 of a four-part infographic series on Loss and Damage.

The infographic series are products of our ongoing project on assessing the linkages between climate change adaptation (CCA), disaster risk reduction (DRR), and loss and damage (L&D). For more information, please send an email to info@omlopezcenter.org.
