

Bosai Kokutai 2022

Climate Change × Disaster Reduction

Thinking about sustainable city planning and communities

Recently, weather-related disasters beyond expectation have occurred around the world. Climate change has already become climate crisis.

This session will provide visitors and participants with an opportunity to think about the need to prepare for coming disasters from the viewpoint of sustainable city planning and communities to effectively promote “Climate Change × Disaster Reduction.”

University
students and
international
students are
welcome in
particular

DATE AND TIME

Saturday, 22 October 2022,
16:30–18:00

VENUE

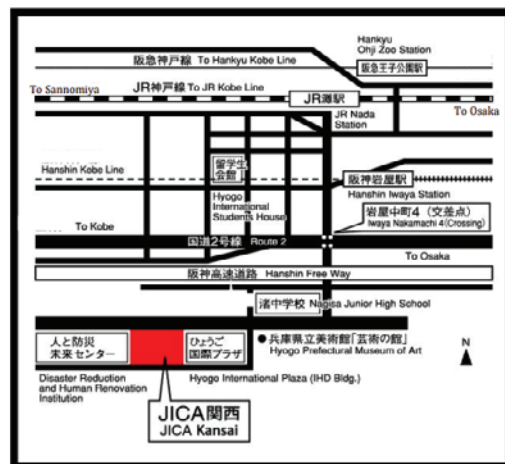

Briefing room on 2F of JICA Kansai
(1-5-2 Wakinohama Kaigandori,
Chuo-ku, Kobe City)

SESSION FORMAT

Hybrid (on-site and online)
Japanese-English simultaneous
interpretation available

CAPACITY

60 persons at the venue (first-come-first-served)
300 persons online

※ Please wear a mask at the venue. Thank you for your cooperation.
※ The session may be held online only depending on the pandemic situation.

Organiser: Asia-Pacific Network for Global Change Research (APN)

Cooperation: Graduate School of Disaster Resilience and Governance, University of Hyogo

Sponsors: Hyogo Prefectural Government and Hyogo Environmental Advancement Association

Programme

Panel discussion

A panel discussion will be held on the theme of “Climate Change × Disaster Reduction” – Thinking about sustainable city planning and communities.

Feature 1 An international session will be held utilising the network of APN. Information will be disseminated to people in Japan and abroad through Japanese-English simultaneous interpretation.

Feature 2 Experience of various disasters, including the Great Hanshin-Awaji Earthquake, will be shared by utilising the findings of the Graduate School of University of Hyogo. Discussions will examine how communities should prepare for flood damages, which are becoming increasingly common.
