

Sustainable Adaptive Practices [SAP]

Dr. Dipayan Dey
South Asian Forum for Environment [SAFE]
www.safeinch.org

*Earth provides enough to satisfy
every man's needs, but not every
man's greed.*
M.K. Gandhi

Forum Host: Co-organisers:

United Nations
Climate Change

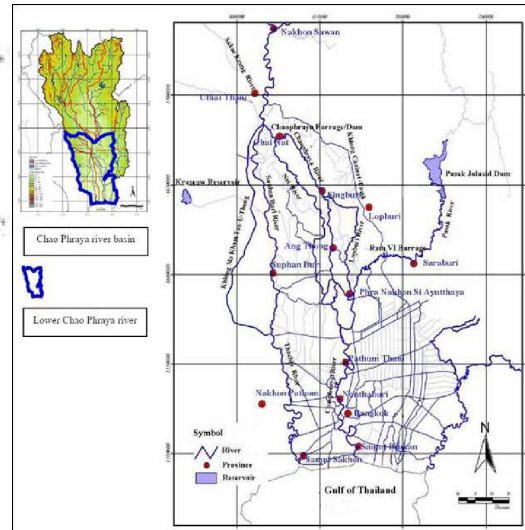

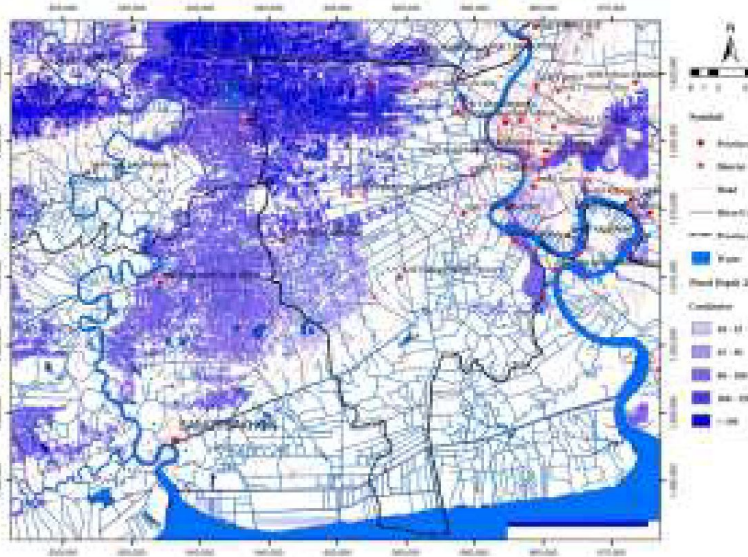

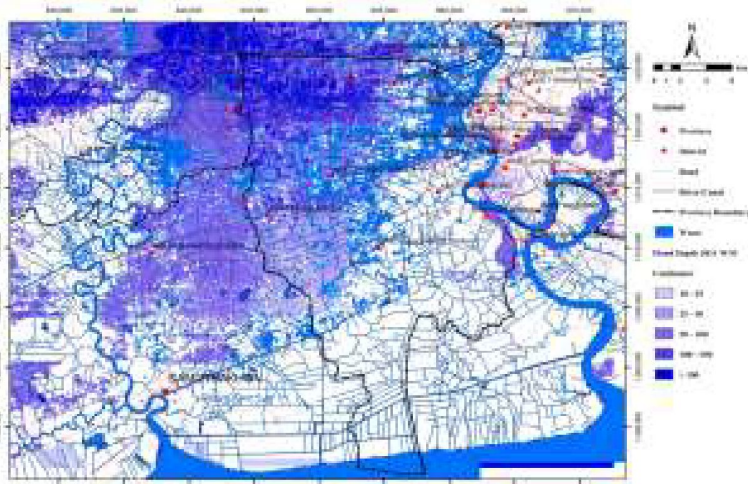

Case Study-1 (India & Bangladesh): Floating Farms Climate Resilient Farming

Case Study 2 (Thailand): Monkey's Cheek

Flood management structure

Challenges of SAP

- State partnership for Socio-economic mainstreaming
- Assessment of carbon leverages and attract carbon finance
- Policy change and collective / shared resp
- Community level adoption and adaptatio
- Pricing of Nature's services
